University of Lausanne <i>MSc in Economics</i>	Sep. 2017 – Aug. 2019 <i>Lausanne, CH</i>
University of Lausanne <i>BSc in Economics</i>	Sep. 2014 – Aug. 2017 <i>Lausanne, CH</i>

RESEARCH

- The Impact of Natural Disasters on Capital Flows | Job Market Paper** 2024
- Climate-change-induced disasters have increased significantly over the past decade, heightening physical risks that can affect financial markets. This paper explores the impact of both domestic and foreign natural disasters on international capital flows, which are key contributors to financial markets, and examines the heterogeneous reactions of flows across countries. I show that capital flows react significantly to natural disasters when controlling for previously unexamined factors, such as a country's preparedness to handle disasters and disaster risk level. I further analyze different reactions of capital flows. I find that portfolio equity flows react more negatively to domestic disasters, while debt flows are more sensitive to foreign disasters. FDI and bank flow reactions are more muted. Moreover, the results show that flows react significantly to disasters when the severity of the impact is measured in terms of population exposure rather than the duration of the event.

EXPERIENCE

PhD Intern

Sveriges Riksbank, Research Division

April 2024 – June 2024

Stockholm, SE

- PhD internship focusing on own academic projects.

Fund Intern

IMF, European Department, Nordic Division

July 2023 – Sep. 2023

Washington DC, USA

- Analyzed the effects of geoeconomic fragmentation on trade in the Nordic countries.
- Constructed dataset for all European countries to measure different types of trade reliance.

Research Assistant – for Prof. Noailly

IHEID, Centre for Int. Environment Studies

Oct. 2020 – Dec. 2020

Geneva, CH

- Conducted literature review on climate risks and financial flows.

Research Assistant

Swiss National Bank, International Policy Analysis

June 2019 – July 2020

Zurich, CH

- Supported policy-oriented empirical projects on international economic topics.
- Collected and analyzed relevant data and drafted documents.

Research Assistant– for Prof. Rohner

University of Lausanne

May 2018 – May 2019

Lausanne, CH

- Constructed dataset about the Syrian Civil War.

Research Assistant– for Prof. Maurer

University of Lausanne

July 2017 – August 2017

Lausanne, CH

- Investigated statistical relations of diseases.
- Explored health-affecting behavioral factors and economic indicators.

Student Assistant– for Prof. Bruhin & Prof. Montez

University of Lausanne

July 2017 – July 2017

Lausanne, CH

- Designed and wrote solutions of problem sets for 2nd year BSc Microeconomics course in English and in French for around 250 students.

PRESENTATIONS

2024: Young Swiss Economist Meeting, ETH.

2023: IMF European Department; Conference on Climate and Energy Finance, Leibniz University; Economics of Environment and Energy Programme (EEE) Workshop, LSE; IHEID Brown Bag Lunch; Annual Congress of the Swiss Society of Economics and Statistics (declined due to scheduling conflict), University of Neuchâtel.

2022: Workshop on Environmental Time Series Analysis, Maastricht University; 8th International Ioannina Meeting on Applied Economics and Finance, University of Ioannina, Kefalonia; 2nd Rare Voices in Economics Conference, (Poster), University of Geneva; IHEID Brown Bag Lunch; Research Assistants Networking Event, Swiss National Bank.

TEACHING ASSISTANTSHIPS
